PERIPHERAL NERVE BLOCK NEEDLES

The clinician-inspired line of Arrow® Peripheral Nerve Block (PNB) Needles is designed to help increase overall block success by enhancing needle control and maneuverability during needle positioning and providing clinicians with a choice of placement options in a variety of lengths and sizes.

STIMUQUIK® ECHO PNB NEEDLE (STIMULATING & ECHOGENIC)

The clinician-inspired Arrow® StimuQuik® ECHO Stimulating and Echogenic Peripheral Nerve Block Needles are designed to help increase overall block success by enhancing needle control and maneuverability during needle positioning. The Arrow® StimuQuik® ECHO Needle's five grooved rings help improve the visibility of the needle under ultrasound while maintaining the same clinician-inspired features of the standard StimuQuik® Needles.
