SINGLE-USE LMA® AIRWAYS

Teleflex offers a comprehensive line of single-use LMA® Airways, providing anesthesia professionals with a full range of laryngeal mask options, so you have the right airway device for every patient.

LMA® GASTRO™ AIRWAY

- Designed to enable clinicians to proactively manage their patients' airway while facilitating direct endoscopic access via the integrated endoscope channel
- Facilitates end tidal CO₂ monitoring through the procedure to support patient safety.
- 14mm maximum endoscope size
- Integrated Cuff Pilot™ Technology is designed to lower risk of post-operative sore throat^{1,2,3}
- 100% Silicone airway tube and cuff for patient comfort
- Integrated bite block

LMA® PROTECTOR™ AIRWAY

- Features an elongated silicone cuff designed to form an optimal dual seal to functionally separate the respiratory tract from the gastrointestinal tract.
- The first single-use, second-generation laryngeal mask to feature a dual gastric drainage channel and pharyngeal chamber intended to channel gastric contents away from the airway to help reduce the risk of aspiration¹
- Ability to intubate with size 6.5-7.5 mm endotracheal tube
- Integrated cuff pressure monitoring for patient comfort
- Integrated Cuff Pilot™ Technology is designed to lower risk of post-operative sore throat^{2,3,4}
- Integrated bite block

LMA® FASTRACH® AIRWAY

- Designed as a guide for blind intubation of the trachea without moving the head or neck and allows continuous ventilation between intubation attempts¹

[View Details](#)

LMA® FLEXIBLE® AIRWAY

- Wire-reinforced airway tube provides flexibility and resistance to compression
- Ideal for ear, nose, and throat, ophthalmic and dental surgeries, or other procedures requiring shared airway access

[View Details](#)

LMA® SUPREME™ AIRWAY

- Second-generation laryngeal mask designed to reduce risk of aspiration with an integrated drain tube and dual seal
- LMA® Evolution Curve™ airway tube facilitates rapid insertion and is designed to minimize axial rotation once inserted^{1,2,3}
- Integrated bite block and fixation tab

[View Details](#)

LMA® UNIQUE™ AIRWAY

- Suitable for use in routine or emergency anesthetic procedures, and as a rescue airway during unexpected difficult airway and cardiopulmonary resuscitation situations¹
- Available in convenience plus pack which includes syringe and lubricant gel
- PVC cuff with standard straight airway tube
- Tactile inflation pilot balloon
