# THERACATH® EPIDURAL KITS AND SETS

## **Description:**

The Arrow<sup>®</sup> TheraCath<sup>®</sup> Epidural Catheter is designed for pain management procedures where increased steerability is an important factor, and features a wire-reinforced, styletted body with a soft, spring-wire tip.

- · Kits include procedural drugs and a variety of procedural and prep components
- Intermediate Sets include 'Kit' contents, but no drugs or drug identification labels (Note: some of these trays contain povidone-iodine prep solution)
