

EPIDURALS

FLEXTIP PLUS® EPIDURAL KITS AND SETS

Description:

Clinically proven to significantly reduce the risk of vessel puncture and paresthesia, ⁽¹⁻⁶⁾ the coil-reinforced FlexTip Plus® Epidural Catheter is designed to provide the precise balance of softness and strength needed to achieve ease of placement, reliable patency and less inadvertent penetration.

- Kits include procedural drugs and a variety of procedural and prep components
- Safety Kits include 'Kit' contents with Safety Injection Needles and SharpsAway® II Locking Disposal Cup
- Intermediate Sets include 'Kit' contents, but no drugs or drug identification labels (Note: some of these trays contain povidone-iodine prep solution)
- Sets include basic procedural components and contain no drugs, drug identification labels, or prep components
